

Company Profile

We're here to help!

Ellis Contractors (Pty) LTD are highly skilled and experienced in the application of industrial, marine and fire proof coatings. Supplying and installation of industrial roofing.

We have provided quality workmanship to the Steel Structural and building Industry since 2011.

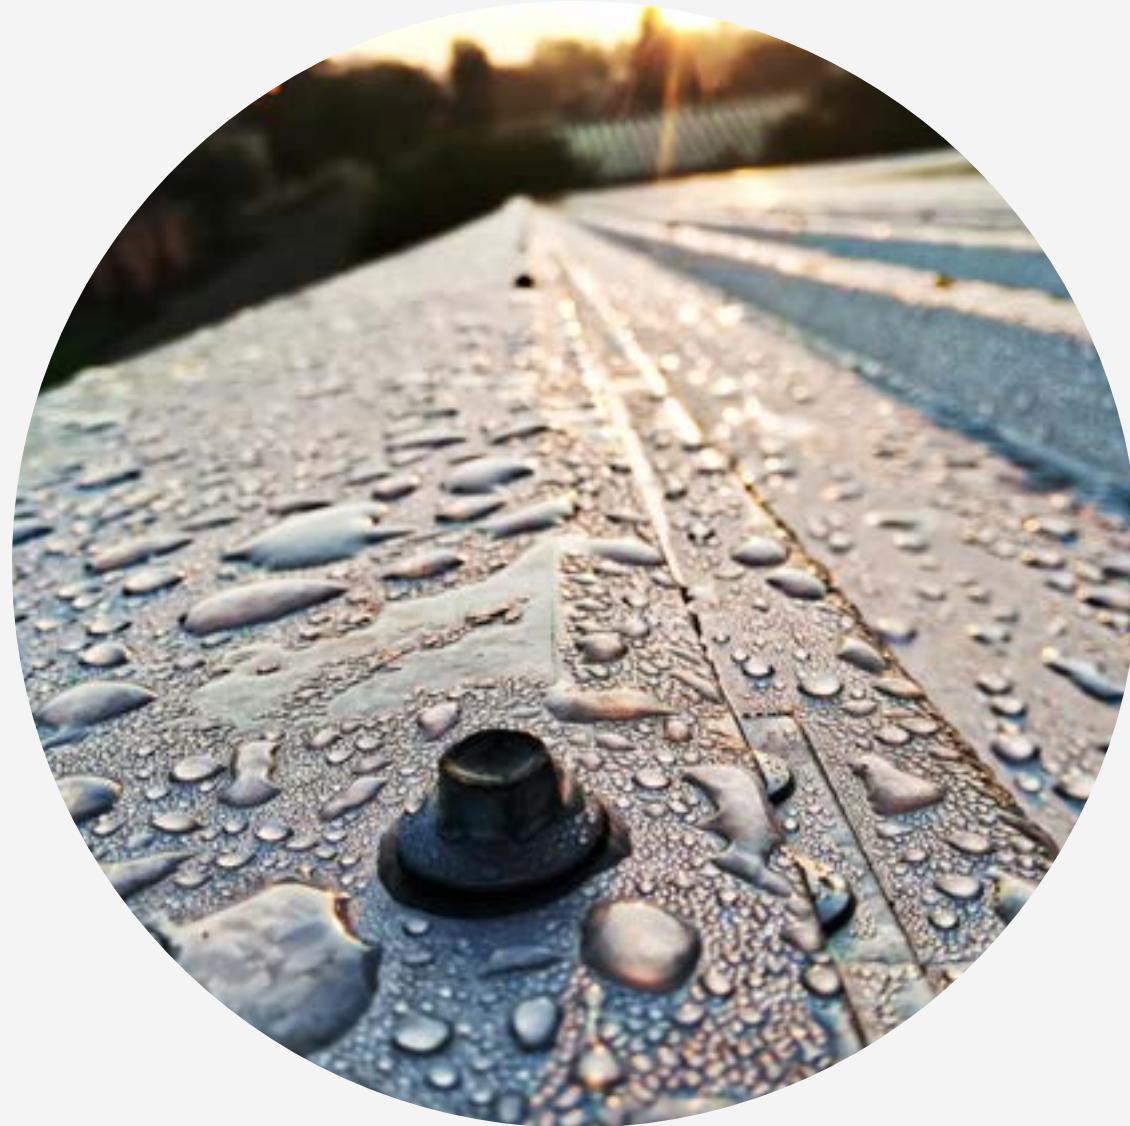

Our Mission

To provide great customer service and quality workmanship, which has become absent in the industry. We, as a young and enthusiastic company, want to change the customer's idea of contractors. We want to allow quality and care to become synonymous with the name Ellis Contractors (Pty) Ltd

The skills of the company boast over 5 years of on-site management and project management for Top Coat Painting Contractors. Ellis Contractors (Pty) Ltd have over 9 years of successful projects as an independent company.

With expertise in roof sheeting, various protective & fire coating systems and well trained, experienced staff members our work speaks for itself. The management of the company guarantees a professional all round service in dealing with all aspects of the project, including liaising directly with architects and engineers

Our Services

Steel Structural Industrial Protective Coating

Application of various corrosive coatings through many different application methods. Our service is guaranteed in accordance with our product supplier policies.

Fire Proofing

Application of intumescent coatings in accordance with the required specifications. Our services are certified according to product supplier policies.

Industrial Roofing and Sheeting

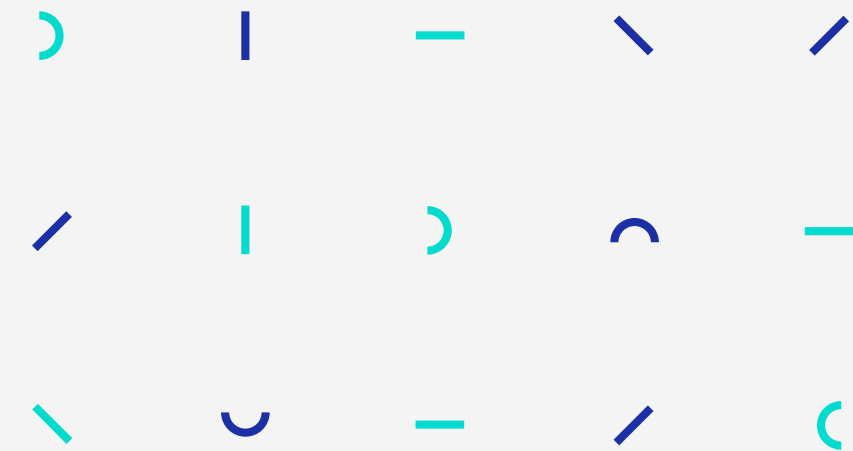

Installation of various roof sheeting and cladding systems (including: IBR, Kliplok, Polycarbonate and more).

Asbestos Removal

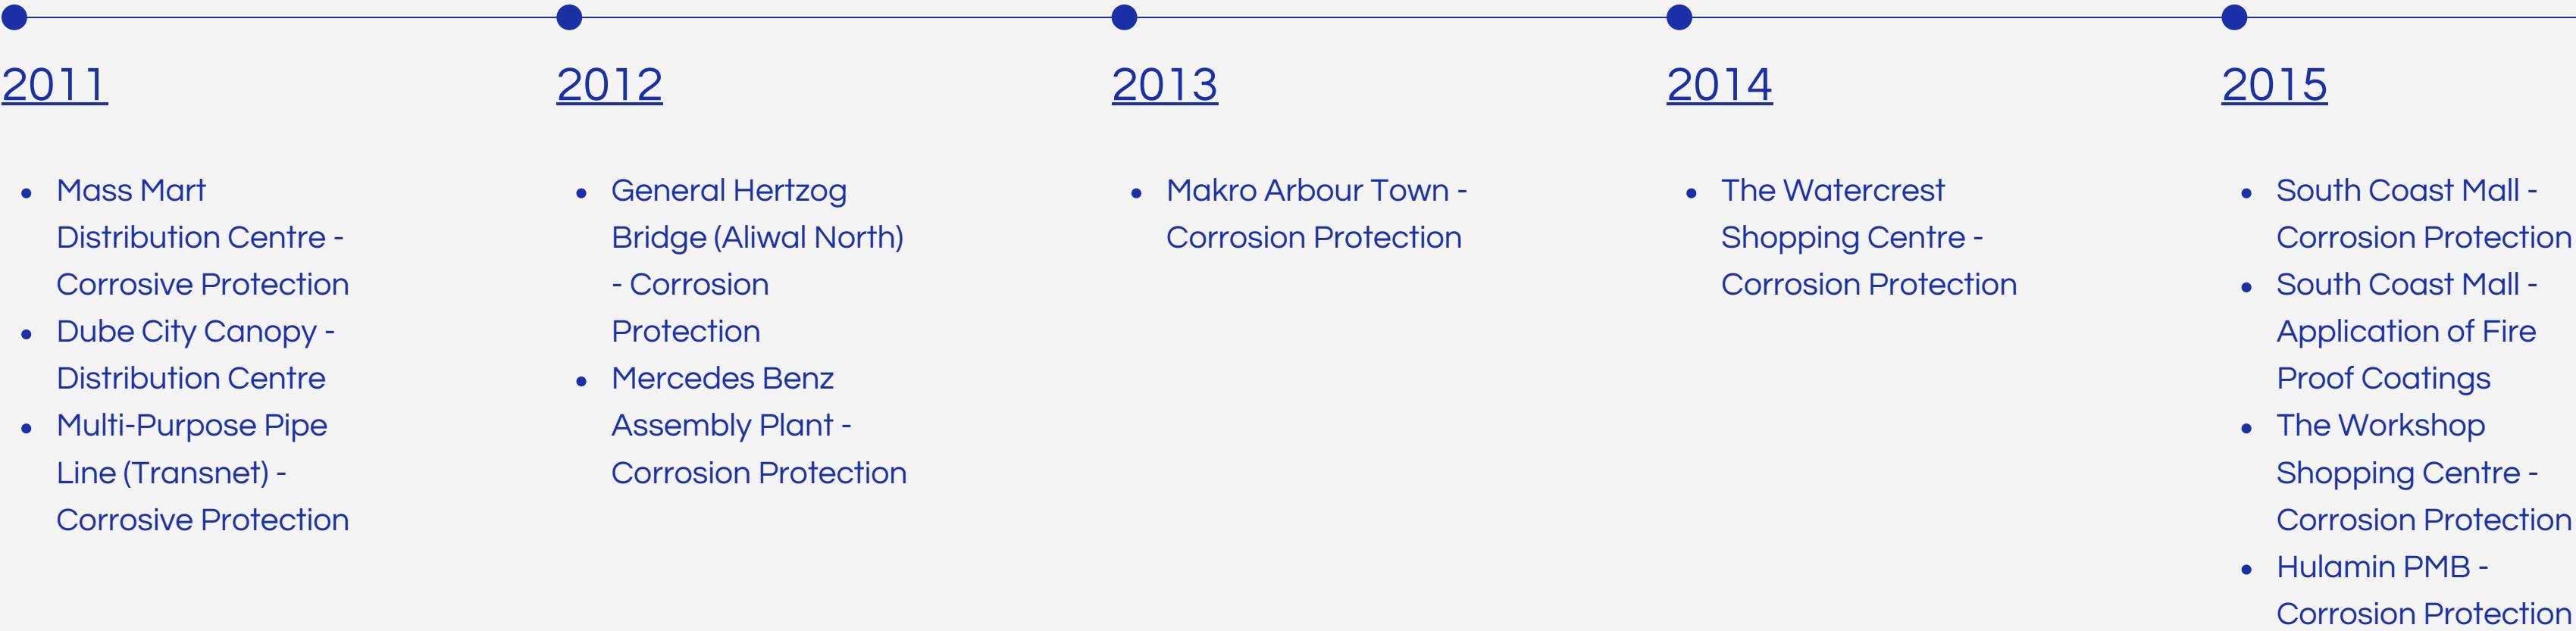

Certified Asbestos Contractors to safely and legally remove your old damaged asbestos. All of our staff are trained in asbestos handling and we will ensure your work area remains a safe environment for you and your employees
